Bob, Diane and family. Your mother was a wonderful lady. She was so kind to Skip and my mother. The world is a better place because of Connie.

The Nelson and Whitney family lives have intersected in varied layers of generational familiarity and regard. I have always understood that the Nelson household greatly admired Connie. My parents spoke frequently of their enormous respect for the devotion and tenacity Connie demonstrated in her many endeavors. My recollection also includes that playful respect and genuine affection was also in great measure. I was fortunate to reside with my parents before their departure. Within the last year of Jan's life we spent much time seeking easy and recognizable activities. There were a handful of occasions where we went to visit Connie to enjoy her company and admire her garden. It never mattered that Connie and Jan had to be reminded of their acquaintance, they were so delighted to see one another and spend time in the back yard. The grounds were immaculate and fragrant and offered a joyful experience to have and to anticipate. Our mothers were beautiful, physical and vibrant. They embraced, held hands and wished one another well until the next visit. A mother's love is infinite and all encompassing. May you continue to feel her love even though she is no longer with us.
